March 16, 2017

Dear Dr. O'Neil,

Palm Beach Equine Clinic is a USDA approved quarantine facility in South Florida that is available for all emergency surgery and isolation requirements as directed by the Department of Agriculture. Palm Beach Equine Clinic has multiple ISO stalls and an ICU hospital for all critical care medical cases. In addition, we have three Board Certified Surgeons, Board Certified Internist and a Board Certified Radiologist on staff. We are a 90-minute trailer ride from Gulfstream Park to our surgical, ICU and imaging amenities. Palm Beach Equine Clinic is happy to provide veterinary support for The Stronach Group and The Caribbean Classic yearly.

Sincerely,

Scott J Swerdlin, DVM, MRCVS
President of Palm Beach Equine Clinic
