BEST BET: Race 6 - #6 Crown to the Gold

Anyone following my picks for any amount of time knows I had been chasing Crown to the Gold for a while. He finally broke his maiden two starts back when dropping down to a logical level. After an okay effort last time out against winners, he takes another slight drop in class today and gets jockey Samy Camacho back up, who I think fits him very well.

LONGSHOT: Race 2 - #2 Motatan

This horse has very dirtied up form through his last two races, and that will likely make him a better price than some of the others in here. I think it's pretty clear that Motatan did not handle the sealed sloppy conditions that he ran over when those last two races were taken off the turf, and the grass is most definitely his preferred surface. I expect a better effort today when he gets back to where he is comfortable.
