**BEST BET: Race 4 - #6 Gunnevera**

Even though he is far and above the class of the field, Gunnevera is typically a one run closer and does need to work out that trip with a small field. However, he has been working lights out at GPW in preparation for this race off the layoff since the Preakness, and should have some speed with the two inside runners. Here's hoping for another win over his home track.

**LONGSHOT: Race 11 - #6 Major Key**

The biggest question with this horse is whether he can compete with the tough competition he'll be facing, but he showed a huge late run last time out to get the win under Miguel Vasquez, who stays aboard. He also finished ahead of Kroy, who came back to win his next by 7 lengths with a 90 Beyer Speed Figure.
