**BEST BET: Race 3 - #8 Baylor**

This might be a case of "last time was the time," as Baylor was beaten by a neck at odds of 12-1, a price you certainly will not get on her today. However, I do think that she is way the horse to beat. She has the light-framed physique of a turf horse, and her two grass races have really been good. Edgard Zayas stays up and she has a tactical running style.

**LONGSHOT: Race 9 - #2 Su Su's Kitten**

This filly is making her first start for new trainer Luis Ramirez and is technically taking a small step up in class, but the positives are that she is coming off of a nice victory and gets Jose Batista in the saddle, who's been riding in very good form. If you cross off the off-the-turf race two starts back, she boasts some very strong two-turn turf form.
