**Two Romping July 26<sup>th</sup> Winners:** R Prerogative and J P's Delight raced within approximately 95 minutes of one another back on Friday, July 26<sup>th</sup>. And boy, did they both win big. R Prerogative scored a much-the-best optional claiming victory in race 4 while the debuting J P's Delight obliterated five overmatched foes in the opener, a \$35,000 maiden claimer. Thursday's 8<sup>th</sup> race sees these three-year-old fillies clash in what could be a fever-pitch-type showdown in a Florida-bred entry-level allowance at 5.5 furlongs. In a way, Gulfstream Park is making its own return of sorts considering Hurricane Dorian – or the prospects of the ferocious Dorian – knocked out live racing here last Sunday and Monday. As mentioned on the left side of the page, GP's popular jackpot Rainbow 6 features a massive carryover of more than \$1 million; first-race post time is 1:20 ET. Moving back to race 8, I see a nearly unavoidable pace duel between R Prerogative and J P's Delight. Both fillies displayed searing early speed in their respective late July victories. And of the pair, I prefer R Prerogative because of her simple edge in seasoning and experience: this daughter of Drill has run eight times while J P's Delight owns just one career start to date. Midtown Rose isn't as flashy looking per say, but it appears as though she could be "the trip horse" among this cast of seven runners. Midtown Rose sports top connections – trainer Saffie Joseph Jr. and jockey Edgard Zayas – and should improve in her second start back from a 133-day layoff. This Gary D filly (I love obscure sires by the way) has been consistently good throughout her career with a record of 4-2-1 from 10 starts.
